Paper 1 Multiple Choice – Testing for Biological

MARK SCHEME

Maximum Mark: 30

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the 2026 series for most Cambridge IGCSE™, Cambridge International A and AS Level components, and some Cambridge O Level components.

This document consists of 4 printed pages.

Question	Answer	Marks
1	**A** ; *Option A correctly fulfills the Cambridge 9700 learning criteria for Testing for Biological. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
2	**B** ; *Biuret reagent tests for peptide bonds in proteins; a positive result turns from pale blue to lilac / purple / violet.*	1
3	**C** ; *Benedict's solution tests for reducing sugars; a positive result changes from clear blue to green, yellow, orange, and finally a brick-red precipitate.*	1
4	**D** ; *Option D correctly fulfills the Cambridge 9700 learning criteria for Testing for Biological. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
5	**A** ; *Option A correctly fulfills the Cambridge 9700 learning criteria for Testing for Biological. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
6	**B** ; *Option B correctly fulfills the Cambridge 9700 learning criteria for Testing for Biological. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
7	**B** ; *Biuret reagent tests for peptide bonds in proteins; a positive result turns from pale blue to lilac / purple / violet.*	1
8	**D** ; *Option D correctly fulfills the Cambridge 9700 learning criteria for Testing for Biological. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
9	**A** ; *Option A correctly fulfills the Cambridge 9700 learning criteria for Testing for Biological. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
10	**B** ; *Option B correctly fulfills the Cambridge 9700 learning criteria for Testing for Biological. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
1	**A** ; *Option A correctly fulfills the Cambridge 9700 learning criteria for Testing for Biological. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
2	**B** ; *Biuret reagent tests for peptide bonds in proteins; a positive result turns from pale blue to lilac / purple / violet.*	1
3	**B** ; *Biuret reagent tests for peptide bonds in proteins; a positive result turns from pale blue to lilac / purple / violet.*	1

Question	Answer	Marks
4	**C** ; *Benedict's solution tests for reducing sugars; a positive result changes from clear blue to green, yellow, orange, and finally a brick-red precipitate.*	1
5	**C** ; *Benedict's solution tests for reducing sugars; a positive result changes from clear blue to green, yellow, orange, and finally a brick-red precipitate.*	1
6	**B** ; *Biuret reagent tests for peptide bonds in proteins; a positive result turns from pale blue to lilac / purple / violet.*	1
7	**C** ; *Benedict's solution tests for reducing sugars; a positive result changes from clear blue to green, yellow, orange, and finally a brick-red precipitate.*	1
8	**C** ; *Benedict's solution tests for reducing sugars; a positive result changes from clear blue to green, yellow, orange, and finally a brick-red precipitate.*	1
9	**B** ; *Option B correctly fulfills the Cambridge 9700 learning criteria for Testing for Biological. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
10	**B** ; *Option B correctly fulfills the Cambridge 9700 learning criteria for Testing for Biological. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
