Paper 1 Multiple Choice – Mode of Action of Enzymes

MARK SCHEME

Maximum Mark: 30

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the 2026 series for most Cambridge IGCSE™, Cambridge International A and AS Level components, and some Cambridge O Level components.

This document consists of 4 printed pages.

Question	Answer	Marks
1	**A** ; *Option A correctly fulfills the Cambridge 9700 learning criteria for Mode of Action of Enzymes. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
2	**A** ; *A competitive inhibitor has a complementary shape to the active site, binds directly to the active site, and its effect can be overcome by increasing substrate concentration.*	1
3	**B** ; *Biuret reagent tests for peptide bonds in proteins; a positive result turns from pale blue to lilac / purple / violet.*	1
4	**D** ; *Option D correctly fulfills the Cambridge 9700 learning criteria for Mode of Action of Enzymes. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
5	**A** ; *Option A correctly fulfills the Cambridge 9700 learning criteria for Mode of Action of Enzymes. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
6	**B** ; *Option B correctly fulfills the Cambridge 9700 learning criteria for Mode of Action of Enzymes. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
7	**C** ; *Option C correctly fulfills the Cambridge 9700 learning criteria for Mode of Action of Enzymes. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
8	**D** ; *Option D correctly fulfills the Cambridge 9700 learning criteria for Mode of Action of Enzymes. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
9	**A** ; *Option A correctly fulfills the Cambridge 9700 learning criteria for Mode of Action of Enzymes. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
10	**B** ; *Option B correctly fulfills the Cambridge 9700 learning criteria for Mode of Action of Enzymes. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
1	**C** ; *Option C correctly fulfills the Cambridge 9700 learning criteria for Mode of Action of Enzymes. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
2	**B** ; *Option B correctly fulfills the Cambridge 9700 learning criteria for Mode of Action of Enzymes. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1

Question	Answer	Marks
3	**C** ; *Option C correctly fulfills the Cambridge 9700 learning criteria for Mode of Action of Enzymes. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
4	**D** ; *Option D correctly fulfills the Cambridge 9700 learning criteria for Mode of Action of Enzymes. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
5	**A** ; *Option A correctly fulfills the Cambridge 9700 learning criteria for Mode of Action of Enzymes. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
6	**B** ; *Option B correctly fulfills the Cambridge 9700 learning criteria for Mode of Action of Enzymes. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
7	**C** ; *Option C correctly fulfills the Cambridge 9700 learning criteria for Mode of Action of Enzymes. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
8	**D** ; *Option D correctly fulfills the Cambridge 9700 learning criteria for Mode of Action of Enzymes. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
9	**A** ; *Option A correctly fulfills the Cambridge 9700 learning criteria for Mode of Action of Enzymes. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
10	**B** ; *Option B correctly fulfills the Cambridge 9700 learning criteria for Mode of Action of Enzymes. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
1	**A** ; *Option A correctly fulfills the Cambridge 9700 learning criteria for Mode of Action of Enzymes. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
2	**B** ; *Option B correctly fulfills the Cambridge 9700 learning criteria for Mode of Action of Enzymes. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
3	**C** ; *Option C correctly fulfills the Cambridge 9700 learning criteria for Mode of Action of Enzymes. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
4	**D** ; *Option D correctly fulfills the Cambridge 9700 learning criteria for Mode of Action of Enzymes. In accordance with syllabus standards, the distractors represent common misconceptions or inverted relationships.*	1
